Education:

Bachelor of Engineering, Computer Engineering, Expected Graduation: June 2029
McMaster University, Hamilton, ON

- **Academic Achievement:** CGPA: 9.3/12.0 | Spring/Summer 2026 Term GPA: 12.0/12.0.
- **Scholarships:** McMaster Entrance Award, Broadridge Canada Scholarship, Harbord Club Lily Wolfstod Rebick Award.

Technical Skills:

- **Programming and Software:** Python, MATLAB, Object-Oriented Programming, Git, Autodesk Inventor, CAD.
- **Data & Analytics:** Excel (Advanced Data Modelling), Data Analysis, Data Processing, Word, PowerPoint.
- **Economics:** Microeconomics, Macroeconomics, Economic Analysis, Financial Markets, Fixed-Income Analysis.
- **Computer Engineering (Syllabus Ongoing):** C/C++, Java, SQL, Data structures and algorithms, Logic design, Systems analysis, Data processing.

Engineering Projects & Analytics

- **Q-Arm System:**
  - Integrated Python, Object-Oriented Programming and CAD to create an automated multi-axis arm end effector; developed Excel data models to organize item coordinates, perform barcode verification, automate object retrieval and user authentication.
  - Served as Study Expert for the Q-Arm project, applied project management by introducing the 5 C's of team management and leading weekly Scrum meetings to coordinate tasks, track progress, address challenges, and keep the team aligned through client demonstrations.
- **Multi-Game Application:** Modulated a Python-based application featuring 3 interactive games by applying functions, loops, conditional logic, randomization, and state management to implement game mechanics and scoring systems.
- **Vending Machine:** Developed a user interface enabling clients to configure vending machines, customize product offerings and pricing, and manage sales data; automated sales analysis to identify customer demand patterns and generate product replenishment orders based on demand.
- **Book Research:** Analysed a 1,000-book dataset in Excel to identify relationships between publication year and book thickness, synthesized findings into analytical insights, and presented results using PowerPoint.

Volunteer

- **Head Math Tutor**: Tutored grades 9 and 10 at HCI in Mathematics, adapting explanations and learning strategies to individual needs and strengthening students' understanding and confidence.
- **Community Leadership:** Collaborated with a multidisciplinary team to support students with disabilities at TDSB Variety Village by helping participate in sports, fostering an inclusive environment while strengthening my leadership and teamwork skills.

Extracurriculars

- **Athletics':** McMaster Spring Intramurals finalist (2nd Place) and TDSSAA East Regional Badminton silver medallist. Active competitor in basketball, badminton, and football leagues.
- **Photography:** Skilled in high-resolution image capture, digital formatting, and photo cataloguing.
- **Reading**: Independently read financial books and journals to learn about investment strategies, financial markets, and risk-return analysis.
- **Real Time Investment:** Applied investment strategies through active market monitoring and portfolio management, achieving a 20% portfolio return in 2026.
